Biodegradable

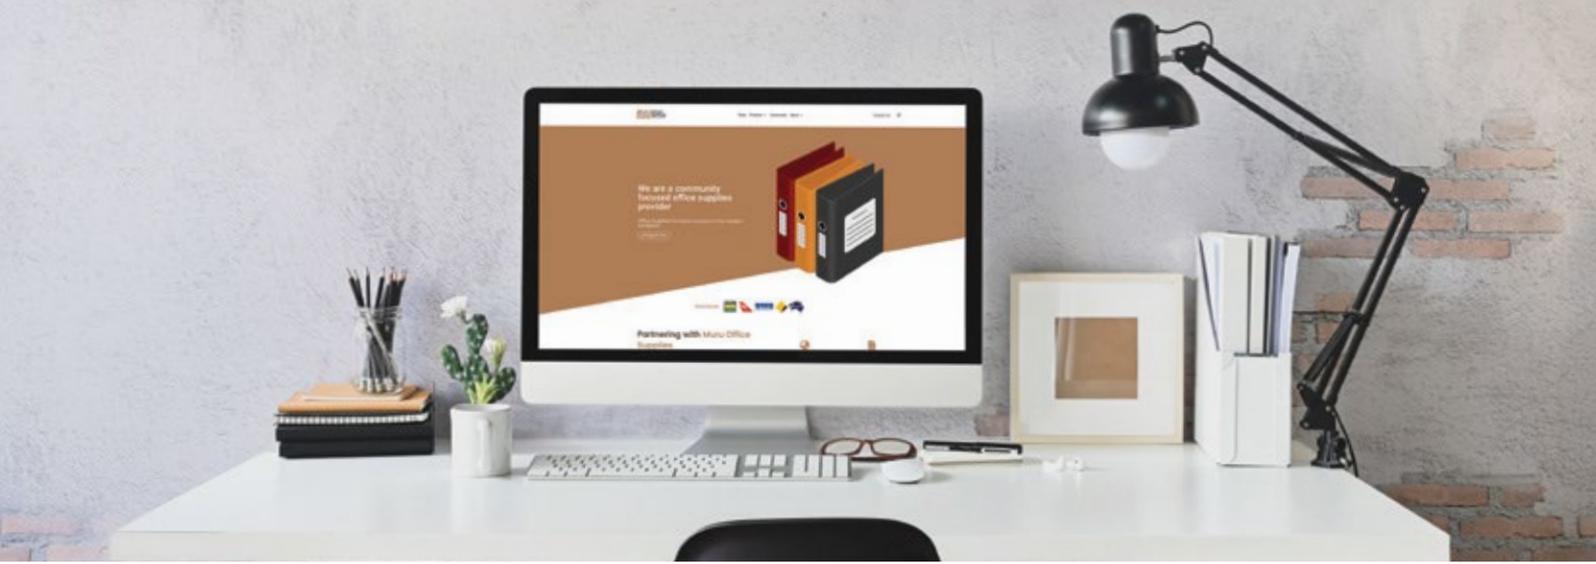

Products that breakdown through natural processes, leaving no harmful residues

Environmentally Accredited

Products with Environmental Certifications associated with responsible and sustainable sourcing, manufacture, material, or end of life

Welcome to the MOS Exclusive Brands Catalogue

At MOS, we understand that today's customers seek exceptional value without compromising on quality. The growing demand for private label products reflects this shift, with businesses looking for affordable yet high-performing solutions across all categories.

We've worked diligently to curate and expand our exclusive brands, ensuring that they cover everything you need to work smarter. From premium writing supplies and advanced technology accessories and ergonomic office furniture, we provide everything to boost creativity, productivity, and comfort. Our range also includes bathroom and cleaning essentials, mailroom and packaging supplies, educational tools to inspire learning, and more. Our proprietary brands are crafted to meet the needs of modern workplaces, delivering tailored solutions that exceed expectations in both value and performance.

With its profound meaning of 'Pathway', Muru has remained true to its commitment to paving the way for future generations. As a testament to this dedication, over the last decade, Muru Office Supplies has evolved into purpose driven and community-focused organisation that is majority First Nations owned and operated. With over 80% of our dedicated team being First Nations descent, we bring diverse perspectives and expertise to our collective mission. As a 100% Australian-owned company certified by Supply Nation, we prioritise both commercial success and social impact. A portion of our profits is dedicated to enhancing education, employment, and health initiatives that benefit First Nations communities.

Since 2014, Muru has contributed more than \$820k to support First Nations communities in the focus areas of Education, Employment, and Health & Wellbeing through the sale of workplace supplies. Thank you for your continued support and for being a part of the COS journey.

Mitchell Ross

Mitchell Ross
CEO

Why MOS?

Australia's Largest First Nations Majority Owned Office Products Supplier with the Best range.

FIRST NATIONS OWNED

In 2012, Mitchell Ross, a proud Bidjigal man, founded Muru Group to make a lasting difference for First Nations peoples and became a catalyst for positive change and a pathway to a brighter future. In 2014, Muru Group partnered with COS® to form Muru Office Supplies a majority First Nations owned and operated workplace products supplier.

Muru, meaning 'Pathway,' has become one of Australia's largest First Nations majority-owned and operated workplace supplies companies, offering a wide range of products for every room in the office.

Over 80 percent of employees are of First Nations descent, empowering their collective mission through their unique perspectives and expertise. Certified by Supply Nation, Muru dedicates a percentage of profits to support First Nations communities in education, employment, health, and wellbeing.

EXPANSIVE PRODUCT RANGE

Muru Group, a strong advocate for First Nations businesses, launched a stationery product line in 2014 featuring unique designs by a First Nations artist. This initiative not only contributes to the development of sustainable First Nations communities but also promotes cultural representation in the workplace.

The Muru range now includes 60 items, with over 4 million products sold from office supplies, copy paper, kitchen and bathroom products. Popular items are the Muru Notebooks and Muru 100% Recycled Paper, showcasing their appeal and commitment to sustainability. By incorporating First Nations aesthetics, Muru promotes cultural understanding, diversity, and sustainable development in First Nations communities.

COMMUNITY MINDED

Each purchase from Muru, supports First Nations communities with over \$820k contributed since 2014. A key Muru initiative is an early childhood education program in North Queensland that provides free access to structured play for over 30 First Nations children, aiding their transition into public school.

Muru also supports IndigiGrow, a social enterprise creating sustainable opportunities for First Nations peoples through the cultivation, production, and sale of native plants. Youth are given horticultural trade skills and employment opportunities while learning about the cultural significance of native plants and bush foods.

A new initiative supported by Muru is Women's Business Second Chance Hub in WA supporting First Nations women who have experienced disadvantage or adversity to overcome barriers and achieve success in starting or growing their own businesses.

LOCAL WAREHOUSE & DELIVERY

Muru is powered by COS®, who have invested heavily in creating a nation-wide presence, with an extensive network of sales offices, warehouses and distribution centres across Australia. Each branch is tailored to local requirements and delivers a local service experience.

Our warehouses are quality assured, state-of-the-art facilities with advanced technology to ensure industry leading order accuracy. We maintain all our logistical services in-house with the flexibility to provide a range of additional services.

COMPLETE ORDERING SOLUTION

We thrive on creating innovative solutions for the workplace of the future. Our online ordering system, MOSnet, has been designed with our customers in mind and with intuitive time saving features.

Your go-to choice for sustainable office paper

New Future Opti, by UPM answers all your needs for sustainable paper products.

As an FSC certified office paper, it has a lighter environmental impact and comes complete with a unique biodegradable, recyclable and plastic free wrapper.

Did you know that most office papers have a plastic coated wrapper that is difficult to recycle?

By making the switch to New Future Opti we could reduce our footprint by:

- **1,700** Olympic swimming pools of water,
- Emissions equivalent to **80,000** passenger vehicles,
- **80,000,000** plastic-coated office paper ream wrappers,
- Fibre equivalent to **10,000,000** reams,
- **Recyclable paper straps** are made from a blend of primarily recycled pulp with some virgin long fibre for added strength.

Sustainability Meets Cleaning in Power Fresh

Explore Power Fresh Cleaning Products, the superior choice for commercial and hospital-grade cleanliness.

Offering great value, our range boasts biodegradable ingredients and recyclable packaging, ensuring effective cleaning without harm to the environment. What makes Power Fresh stand out is its dedication to both efficacy and sustainability.

Experience powerful cleaning that leaves your space pristine while maintaining environmental responsibility.

Power Fresh: Sustainable Cleaning

Organisations across Australia are increasingly focused on their Environmental, Social, and Governance (ESG) goals, looking for ways to operate sustainably without sacrificing performance or cost-efficiency.

Cleaning is a vital part of business operations, but traditional cleaning products often come with environmental drawbacks such as harmful chemicals, excessive plastic waste, and non-recyclable packaging. That's where Power Fresh comes in – providing businesses with high-quality, sustainable cleaning solutions that align with their ESG commitments.

By offering biodegradable cleaners, recyclable packaging, and plastic-free alternatives, Power Fresh has given businesses a way to maintain high cleaning standards while making environmentally responsible choices.

Biodegradable Cleaners

Many conventional cleaning products contain phosphates, sulphates, and other harsh chemicals that contribute to water pollution and environmental degradation. Power Fresh takes a different approach by using plant-based surfactants and biodegradable ingredients, ensuring that its products break down naturally without leaving a harmful impact on ecosystems.

Some biodegradable products in the Power Fresh range include:

- **Dishwashing Liquid** – Made with plant-based ingredients and free from sulphates and phosphates, this dish soap effectively cuts through grease while being gentle on the environment.
- **Window & Glass Cleaner** – Formulated without harsh chemicals, this cleaner provides streak-free shine while ensuring that no toxic residues are left behind.
- **Bleach** – A powerful hospital grade biodegradable solution that disinfects and cleans without the chlorine-based formulas found in traditional bleach products.

Recyclable Materials

Sustainability isn't just about what's inside the box or bottle, it's also about what happens to the packaging once a product is used. Power Fresh packaging is designed to minimise waste by using 100% recyclable materials. This helps businesses reduce their carbon footprint and take part in circular economy initiatives, where materials are continuously reused and repurposed rather than sent to landfill.

By opting for recyclable packaging, businesses can:

- **Reduce their plastic waste output** and contribute to a cleaner environment.
- **Support recycling programs** that help keep materials in use instead of adding to landfills.
- **Demonstrate commitment to sustainable operations**, appealing to eco-conscious consumers and stakeholders.

Eliminating Single-Use Plastics

Most dishwasher tablets on the market are wrapped in Polyvinyl Alcohol (PVA), a type of dissolvable plastic that ultimately still contributes to microplastic pollution. Instead of following this trend, Power Fresh dishwasher tablets use a proprietary, water-soluble coating that is completely plastic-free, meaning:

- No microplastics are released into the environment.
- Businesses can actively contribute to reducing plastic waste in their operations.
- You benefit from cleaner, more sustainable solutions without compromising cleaning performance.

Sustainability Without Compromise

A common misconception about eco-friendly cleaning products is that they are less effective or more expensive than traditional alternatives. Power Fresh proves that businesses don't have to compromise on performance or cost-efficiency when choosing sustainable cleaning solutions.

By offering concentrated formulas, Power Fresh ensures that businesses use less product per clean, extending the lifespan of their cleaning supplies and reducing long-term costs. By investing in high-quality biodegradable ingredients and recyclable packaging, companies can enhance their ESG efforts without sacrificing cleaning power.

The Impact of Choosing Power Fresh

When an organisation chooses Power Fresh cleaning products, they aren't just selecting high-quality solutions - they're making a commitment to a cleaner, greener future. The brand's focus on biodegradable formulas, recyclable materials, and plastic-free innovation makes it an ideal choice for companies looking to:

- Meet ESG goals and show environmental responsibility.
- Reduce plastic waste and support sustainable business practices.
- Use powerful, biodegradable cleaning solutions without compromising on quality.

The move toward sustainable cleaning is no longer just a choice but a necessity for businesses that want to stay ahead in an environmentally conscious world. Power Fresh provides the ideal solution, offering powerful, effective, and cost-efficient cleaning products that also prioritise the planet's well-being.

POWER FRESH CLEANING CHEMICALS

The **Power Fresh** range of cleaning chemicals is Australian made, making it great value for money. The majority of our cleaning products are environmentally friendly and made with plant-based surfactants. Our products are powerful and effective to keep your workspace free from dust, grime, and germs while leaving a long-lasting fresh fragrance. We have a dedicated range suitable for any occasion, available in a variety of sizes from spray bottles, squeeze bottles, to 5 litres that can easily be decanted into our branded refill bottles.

HEAPSGOOD

**Aussie-owned
business**

**Loved by
25,000 brands**

**Certified
sustainable**

HeapsGood is on a mission to accelerate the shift towards conscious, sustainable packaging.

We offer thoughtfully designed solutions and workplace essentials that empower businesses to eliminate single-use plastic, without sacrificing quality, functionality, or customer experience.

HEAPSGOOD

HEAPSGOOD KRAFT & HEX PAPER

This Australian-made **Heapsgood Kraft & Ecopaper** is produced entirely from 100% recycled materials, meaning it can go straight into your recycling bin. A sustainable choice for workplaces seeking eco-friendly packaging and wrapping needs. The **Hex Wrap** is entirely compostable and features an interlocking honeycomb design, making it easy to tear without requiring scissors or tape, providing a sustainable alternative to conventional bubble wrap. The Hex Roller is built with a durable powder-coated steel finish, ensuring long-lasting use. With its suction cup feature, the **Hex Roller** securely holds the paper in place during dispensing, making it a practical addition to your workplace.

HEAPSGOOD

HEAPSGOOD DIY ECO LABELS

These Australian-made, BPA-Free **Heapsgood Eco Labels** are the perfect solution for workplaces looking to promote sustainability. The labels are made from sugarcane waste to reduce the impact on trees and waste, while minimising your carbon footprint. Each set includes vibrant, customisable labels, ideal for various applications like crafting projects, labelling books, packages, and more. With an easy-peel adhesive backing, these labels are easy to apply, making labelling a breeze.

Choosing Cork:

A 100% Natural, Biodegradable and Renewable Resource

Pukka Planet cork products are crafted from ethically sourced cork, harvested by carefully stripping away the outer bark once the tree reaches maturity at around 25 years old. This sustainable practice allows the tree to regenerate its bark and absorb more carbon dioxide, ensures the continued health of the forest, and minimises waste.

COS® CALCULATORS

This lightweight **COS® Pocket Calculator** comes with soft rubber keys and a protective metal cover. This sleek dual power-operated **Basic Calculator** features a large number display and is ideal for solving basic problems. **Tax Calculator** is packed with all the necessary features for tax and sales calculations.

Reliable Stick'n™ Sticky Note

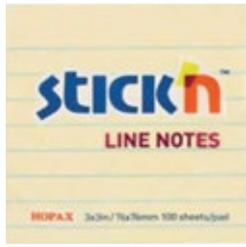

When you write down your goals for the day your brain's reticular activating system (RAS) kicks in, and throughout the day will flag the opportunities and tools needed to help you achieve those goals.

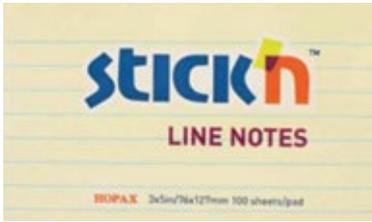

Below is a simple strategy, which involves writing on two Stick'n™ sticky notes at the start of each day, to help you visualise and achieve your goals.

- 1 Start the day on the right note!**
At the start of the day, jot down a mantra or objective to serve as a quick dose of inspiration, to set you on the right path for the day ahead "Today I will..."
- 2 End the day on the right note!**
On this second sticky note, also write down at the start of the day, a question that will allow you to reflect on the day, "Did I...?"

B

STICK'N™ ECO NOTES

These lightweight **Stick'n™ Eco Notes** are an eco-conscious choice, crafted to minimise their environmental impact by utilising less pulp in their manufacturing process, resulting in thinner notes than a standard pad. These eco-friendly notes are stronger and highly durable, adhering securely for an extended period. Sticks effectively on a range of surfaces, such as paper, cardboard, glass, and plastic, making them effortless to apply and remove without leaving any unwanted or sticky residue.

Certifications

As the number of certifications in the market increase it can get confusing. Use this reference guide to decide which certification best meets your business needs.

AFRDI

Provides standards, testing, product certification and research for buyers and sellers of furniture. AFRDI certified products show what level of AFRDI approval was achieved in three key areas: Toughness, Durability and Safety.

Australian Certified Organic

Australia's largest certifier for biodynamic and organic produce, ACO provides certification to suppliers from all sectors. If a product sports the ACO logo, it is compliant with national production standards, and that product can be traced all the way back to its origin.

B Corp®

B Corp certification recognises companies that meet high standards of social responsibility and environmental sustainability. B Corps prioritise creating a positive impact on employees, communities, and the environment, fostering a more sustainable and equitable global economy.

Carbon Reduction institute (CRI)

The Carbon Reduction Institute encourages businesses to lower their carbon emissions. Their carbon neutral certification guarantees that the company in question has minimised and offset the carbon emissions involved in the production and distribution of the product.

CO2 Neutral

CO2 neutral products are made possible by calculating the CO2 emissions produced in the products life cycle.

Energy Star

ENERGY STAR reduces the amount of energy consumed by a product by either automatically switching it into a 'sleep' mode when it's not being used and/or reducing the amount of power used when in 'standby' mode. ENERGY STAR helps save money on electricity bills and the environment by reducing greenhouse gas emissions.

EU Ecolabel

The EU Ecolabel helps consumers to choose – and encourages business to market – sustainable, eco-conscious, high quality products. The aim is to minimise the environmental impact of products from production to consumption.

Fairtrade®

Fairtrade® represents better prices, decent working conditions, local sustainability, and fair terms of trade for farmers and workers in the developing world. Fairtrade® unique product offering allows you to support Fairtrade® products which provides hope for tomorrow.

Forest Stewardship Council (FSC)®

An international network which accredits independent 3rd party organisations who can certify forest managers and forest product producers to FSC® Standards. FSC® partnership among businesses, the public sector and civil society provides a unique tool for dealing with the issues surrounding forestry. FSC® promotes environmentally appropriate, socially beneficial, and economically viable management of the worlds forests.

Good Environmental Choice Australia (GECA)

GECA sets the standard of environmental measures for a product's performance against relevant and primary environmental loads associated with a products life cycle.

Programme for Endorsement of Forest Certification (PEFC)™

PEFC™ works throughout the entire forest supply chain to promote good practice in the forest and ensures products are produced to the highest ecological, social and ethical standards. PEFC™ certification identifies for buyers the wood and paper products that support the sustainable management of forests.

Rainforest Alliance™

An independent seal of approval which ensures that goods and services were produced in compliance with strict guidelines protecting the environment, wildlife, workers and local communities. Rainforest Alliance™ links businesses to conscientious consumers who identify their goods and services through the Rainforest Alliance Certification™.

SupplyNation

SupplyNation connects First Nations businesses with corporate and government buyers in Australia, creating opportunities for First Nations businesses to compete for business. SupplyNation creates these opportunities by providing an essential link between purchasers and sellers.

UTZ Certified™

UTZ Certification™ sets the standards for responsible coffee sourcing and production. UTZ gives an independent assurance of sustainable production and sourcing, and offers a real-time trace-ability of agricultural products back to their origin.
